RELAXTION TIME AT THE HISTORICAL MUNICIPAL BATHS

The Municipal Baths of Strasbourg are a jewel, designed by municipal architect Fritz Beblo at the turn of the 20th century and classified as a historical monument in 2017. The Municipal Baths are remarkable for their design and style, combining Neo-Baroque with hints of Art Nouveau. Just walking through the door takes you to another time. But what's most impressive are the beautifully renovated small and large pools. It's such a pleasure to swim in these pools while admiring their magnificence, especially the stained-glass windows and faithfully renovated vintage changing rooms, as well as all the little details that make the building so charming.

No minimum booking.

Free transfer with your transport pass.

Please bring your own bathing suit, towel, bathrobe, and flip-flops.
